PROJECT

Web Development Projects

Various web development projects showcasing skills in full stack technologies

- **Tours & Travels**

Created a modern and responsive Tour & Travel website using HTML, CSS, JavaScript, and React.js

- **Restaurant**

Created a responsive and dynamic Restaurant website using React.js, integrating external APIs to fetch and display data and customer reviews

- **Calculator**

A simple and responsive calculator built using HTML, CSS, and JavaScript. It performs basic arithmetic operations with a clean UI and smooth functionality.

- **Shopping**

Designed and built a dynamic shopping website using React.js, integrating product APIs to fetch and display items in real-time, implementing product cards, category filters, and responsive layouts

- **CRUD Operations**

Developed a CRUD operation project using MongoDB, Node.js, Express.js, and Redux toolkits to create an attractive and fully responsive website

- **UI replications**

Performed UI replications for learning purposes with platforms like Flipkart, Amazon, and Meeshow
